Recreational License Suspension FAQ's

I just got a notice that Child Support Services is going to suspend my hunting/fishing license! How do I stop that from happening?

Contact the local county child support professional handling your case to discuss payment or a payment plan if needed. If you do not know the local county child support professional handling your case, call the State Enforcement Unit at 303-866-4302.

Why did child support suspend my hunting/fishing license in Colorado?

Child Support Services requested Colorado Parks and Wildlife suspend your hunting/fishing privileges because your child support payments have not been made in full every month.

How long is my hunting/fishing license suspended for?

Twelve (12) months from the date of the suspension.

How do I get my hunting/fishing license back?

There are three ways to have the child support suspension released:

- You must pay 12 months of 100% monthly payment due during the suspension time period. For example - if your privileges were suspended January 19, 2019, your suspension would continue through January 19, 2020; or, if your privileges were suspended on March 19, 2019, your suspension will continue through March 19, 2020.
- Pay 100% of the total arrears balance on your case. When the arrears balance is \$0.00, the child support suspension will be released.
- If your case is closed the child support suspension will be released.
